

**WIC BOOTHS 1-12:  
CONNECTING YOUR  
LAPTOP TO  
THE BOOTH PC**

You can use the PC or connect your laptop via the HDMI cable to have your laptop appear on the PC Screen.

**HDMI Cable:** You may require a dongle (adapter) to use with your laptop. If you do not have what you need, please call the Helpdesk

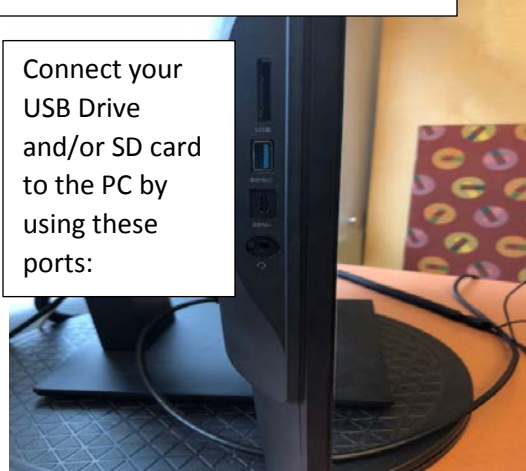

Plug the cable into your laptop. On the right side of the monitor, there are 4 buttons. Start from the top and go to button 3. Push the button to toggle between the PC and HDMI Signals.

Laptops have varying display capabilities. By default, most laptops will "Mirror" the laptop built-in display by default.

Toggle to switch between HDMI and PC

Power for PC

Connect your USB Drive and/or SD card to the PC by using these ports:
